All Complaints

Complaint ID	Type	Item Name	Facility	Batch No.	Quantity	Raised On	Status	Actions
CMP-2024-001	Physical Damage	Paracetamol 500mg Tablets	City Hospital - Main Bran...	BTH2024001	50/1000	Jan 10, 2024	PENDING	Download View Details

In this there are raise complaint button, search recent complaints - with search with dropdown , filter by date range like in check in check out type in hotel like we will choose this date to this date then all complaint one in that range will show , then a clear filters , then all complaints sections there is 4 more buttons to filters like total complaints ,in progress , resolved , escalated button and also there is download button in actions column in complaint table to download the complaint details file in csv filled by complaint user and status of complaints after raising the complaints and also view details in actions column where user click it redirected to a page where they will see the filled form details in same design as in complaint form and also status of complaint .

Now when user click raise new complaint nutton they will redirected to this page:

if (user choose physical damage then they will redirected to this page:

Physical Damage Complaint

Fill in the complaint details
